

KATE ERICKSON

Technical writer, UX writer

Writer with a graduate degree in English and 10+ years of experience, translating messy complexity into documentation people can actually use. Brings lean writing and problem-solving skills to every project.

WORK EXPERIENCE

ASRC Federal—USDA-NRCS contract, Remote — *Principal Technical Writer, TechDocs Team Lead, UX Writing Lead*
Jan 2022 - Present

- Collaborate with dev teams and cross-functional teams to write help content for conservation planning software.
- Collaborate with UX designers to create microcopy.
- Manage doc team's Git repository and MadCap Flare infrastructure.
- Lead weekly meetings and bi-weekly peer reviews to plan resources and promote continuous improvement.

CA Technologies, Fort Collins, CO — *Principal Technical Writer, Project Manager*, August 2011 - September 2016

Natek—USDA-ITS contract, Fort Collins, CO — *Senior Technical Writer*, September 2008 - July 2011

Hewlett-Packard Company, Fort Collins, CO — *Senior Technical Writer, Project Lead*, June 2006 - September 2008

EDUCATION

Master of Arts — English, 2008
Colorado State University, Fort Collins, CO

Bachelor of Arts — Spanish Language and Literature, *cum laude*, 2000
Fort Lewis College, Durango, CO

ACCOMPLISHMENTS

MadCap Flare Migration — Led the effort to migrate to a docs-as-code approach using MadCap Flare and a Git repository. This was a massive effort that was failing until I took over.

UX Writing Initiative — Led the effort to improve microcopy in NRCS apps. Authored a UX writing guide covering voice, tone, and writing guidance for UI components.

TechDocs Authoring Guide — Created a guide for my team that covers writing standards, source control, and troubleshooting. This has improved the quality and consistency of my team's writing.
